[Sql Express Odbc Drivers For Mac](#)

The screenshot displays the 'Connections' properties page in SQL Server Enterprise Manager. The left-hand pane shows a tree view with 'Connections' selected. The main area is divided into sections: 'Connections', 'Remote server connections', and 'Default connection options'. In the 'Remote server connections' section, the checkbox 'Allow remote connections to this server' is checked, and a red arrow points to it. Other settings include 'Maximum number of concurrent connections' set to 0, 'Remote query timeout' set to 600 seconds, and 'Require distributed transactions for server-to-server communication' unchecked. The 'Default connection options' section contains several unchecked checkboxes: 'implicit transactions', 'cursor close on commit', 'ansi warnings', 'ansi padding', 'ANSI NULLS', and 'arithmetic abort'. The 'Connection' section at the bottom left shows the server name as 'SERVER\2008R2' and the connection name as 'SERVER'. The 'Progress' section at the bottom left shows a 'Ready' status with a circular progress indicator.
